thro devotion of powers to the accomplishment of some worthy life-work. These but enforce and echo the sentiments of the matres in praising more the accomplishment have a small-pox mark rader the right of much of a certain kind than doing less of nostril. There it is. Denial is useless, and that kind and making more of ourselves in the development of those relations which we sustain to each other in communities. Now tounded the convict, who at once confessed we grant that it is well to choose an employ-his identity. It is curious to learn how mout a Ffe work, and to stick to it, unless ill that information was obtained, and it the most urgent reasons dictate a change. Indeed, it is the worst condition for one to on such occasion, avail themselves of be in to have no special work to do. But the assistance of confederates. These there is something to be said, so it seems to are chosen among released convicts, us, to that large class who fancy they are enduring a most worthy mattyrdom by de-voting morning, noon and night,-much of t, at least.—to mechanical work, farm labor oll ng goods and easting up accounts writing sermons, books, speeches, or doing anything which in itself, good,-doing it, however, with that perfeet abandon to the work, which recognizes not the family hongering for smiles, social introcourse, fatherly and motherly mingling with children; doing it while thousands around are starving for the sympathy which every morder which they have helped to ferret out. In thus availing themselves of the knowledge of ermonals in regard to the operations of their fellows, without, how here, is that every man and woman has a duty, as a man or a woman, outside of the acepanty, the Paris officials are embled accustomed employment, however worthy deep an effective check on the dangerous and important that may be. A man should school any longer, visited a dye-house in the resolve to be a man first by the exercise of found ready to disclose the acts of others for the sake of some slight improvement in the dark or the pair long of variations in the dark or the pair long of variations are family activities which his relationships in the world impossion that he wouldn't go to school any longer, visited a dye-house in the vicinity of the school-room and borrowed a quantity of purple dye. With this acquisition he wrought divers cruel and vindictive with the variation has a sum and chest after. Plain and Calvanized, preclight inches the dart or the privilege of remaining in a this world impose upon him; then let his re-Paris penitentiary instead of being trans- maining energies be devoted with all assiduity to the occupation which engages them. In a country and an age like this, every man the agents of La Seret's by keeping such a with a few exceptions not now considered, survertance over suspicious characters that may have the leisure, if so he pleases to call time thus used to make his family cheerful by his presence, to make the lamplight a sun-flame by his smiles, to lift a fallen brother through single or associated effort.

Parm and Garden.

(From the Hartford Courant t It has always seemed a somewhat peculiar fact that the average horse should cost so much more than the average ox. The horse has more speed, but he has less power, he costs more to keep, and at death has been ousidered comparatively worthless. The ox is proverbially unduring, lives less ex-pensively than the horse, and is the pride should the occasion require. Notwith and hope of the utilitatian. From begin-standing the fact that the police of Paris are ning to end he is useful; his eye is the simile of for beauty, his tail a trade-mark for soup. His hair is used for mortar, his flesh is all consumed, and the purchases of one instance has occurred of an individual one of these creatures is pretty certain that seeking to profit by an adventure in which ho was concerned. While the munite supervision which the pobec exercises over the the horse is avail he can sometimes be sold vision which the police exercises over the affairs of individuals and the public might not be relisted among us, it is worth considering whether some of the teatures of the system might not be advantageously the system of the teatures of the system might not be advantageously the system of the sy adopted here. If the authorities of Scotland his cost is so much more, there should not In one case, if he did not appear to himsel Yard ask advice in critical cases, from the have been more of an effort to have the himsel in the case, if he did not appear to himsel have been more of an effort to have the flesh of the horse adopted as food, has often certainly learn something from the mon and been a matter of wonder. Circumstance is measures that have given a world-water very apt to help along, not to say cause, very apt to help along, not to say cause, great reforms, and circumstance has, of recent years particularly, been doing considerable to bring this sort of food into the market. Among certain people of Germany

has long been enten, but among the French, especially in Paris, it was very slow of adoption in spite of scientific endorsement. The of scientific endorsement. The war and the siege, however, necessitated its use, and now it is the daily food of a great when I was a boy of nineteen. I applied to many, and is cheaper by half than beef, him for an engagement to write setters to One result of this is the decline of the abuse by discreetly leaving them alone for a little while and then selling them to the

butchers. It appears paradoxical to have it mark a decline in cruckly toward them that men should begin to eat them; but so i MILLIE COWS AND COLD WATER. - The extreme sensitiveness of the mammary func-The castor oil plant is now cultivated in California, and an average crop of 400 pounds of oil to the acre is obtained. tions in cows to the influences of cold, atigue, excitement, unpleasant odors, &c., is indeed surprising. We have been greatly interested in observing the effects of cold apon the milk secretion as seen in the herd and yields about 600 tons per month. i cows upon the farm. During the summer, in hot days in July The Howe Sewing Machine Company has bought out the Oriental Howe Company, and August, the animals resorted to the lake to drink, and after slaking their thirst, they and also obtained control of the Wilcox & would wade into the water and remain sometimes an hour or two with the legs half Gibbs machine. It is estimated that the last wine crop of California will not exceed 8,000,000 gallous, immersed. This habit it was found invariably diminished the flow of milk at night, and in order to tearn the extent of the instead of 20,000,000, as anticipated by over diminution careful observations made. It was ascertained that standing in the water an bour duninished the flow to the amount of 000 were sent to France. eight or ten quarts in a herd of thirteen cows. The loss was so great that whenever they resorted to the water they were driven iron ore have been found on the Pennsylva-nia and New York sides of the Delaware, in

away to the pasture again at once. We have learned that from sumply turning the herd into the yard upon a cold day in winter, and allowing them to remain lifteen.

The cattle trade of Chicago is represented. nunutes, the flow of milk was diminished to a serious extent, and consequently the animals are not allowed to leave the warm railway lines to furnish proper facilities for stable during the entire winter, except for the shipment of stock to the East. Water is brought directly from a well into the barn, and the drinking vessels are argiving sinde, and said nothing. Years after few hours covered, in the warm barn, has wards, I saw that he was right; the poem its temperature raised several degrees, and few hours covered, in the warm barn, has was only a piece of sounding thetorie, for the practice should be adopted by all thrifty but so it is. One firm shipped a large quanther "gassy" was perhaps a course but farmers. It would undoubtedly pay well to tity and has recently received another copynically not an inappropriate epithet. In slightly warm the water, but this is attended order. It is also curious that in Dixon, Ill., this, as in other respects, the discipline to which he subjected me, was excellent; if not the result of his intellectual perception, it manifested an instinct even more remark. The induced of a cold current of able.

Rogisters, of everything and every body may be found at the offices of the prefecture; and the personal history and almost of all refiningly, with the unferedents of every person charged with the slightest misdemeanur, are recorded for future reference, introsted with so gets out of which fortunes might be made, it is said that of the 5.561. agents ander the orders of prefecture, oals

The prevention of crime is also effected by

authorities in the Rue de Jerusalem, we may reputation to the Paris police. Bayated Taytor on Horace directey. From his home in Ootha, Germany, Bayard Laylor writes to the T. dane a letter on Hornee Greeley, in which we find the following interesting reminiscences: first saw Mr. Groeley in June, 1811, the Tribune from Germany. His reply was terse enough. "No descriptive letters?" he said: "I am sick of them. When you have been there long enough to know something, by discreetly lenying them alone for a litsend to me, and, 't there is anything in your letters, I will publish them." I waited nearly a year, and then sent sevention letters, which were published. They were shallow enough, I suspect; but what might they not have been without his warning? Towards the end of 1-17, while I was engaged in the unfortunity entorprise of trying to establish a weekly paper in Phonix vi)le, Penusylvania, I wrote to him-forsering the failure of my hop s-asking his as sistance in procuring literary work in New York. He advised me (as I suspect he has advised thousands of young men,) to stay in the country. But I stayed in the country. try, and a year too long; so another month

ound me in New York, in his office, with my story of disappointment, and my reted request for his favorable influence. Tthink you are mistaken," he said; "but will bear you in mind, if I hear of any Six weeks afterwards, to my great surprise. (for I supposed he had quite lorgotten made, inc), he sout for me and offered me a place standi on the Tribunc. I worked hard and incessantly during the summer of 1847, bearing never a word of commendation or eacouragement; but one day in October he sudcame to my desk, laid his hand on my shoulder and said: "You have been faithful, but now you need rest. Take a wook's holiday, and go into New England." I obeyed, and found on my return that he had ordered my salary to be increased. I think none of his associates, at that time. ever wrote a line which he did not critically read. His comments sometimes seemed rough, but they were always wholesome and invariably just. Once he called me into his room, pointed to a poem of nine which had just appeared in a literary magazine, and abruptly asked: "Why did you pubroom, pointed to a poem of mine which had just appeared in a literary magazine, and abrupily asked: "Why did you publish that gassy stell?" My judignation was even greater than my astonishment. I retorted ficreely: "Mr. Greeley I should draught of ice-cold water, taken by a feel hurt by your question, if I had any cow in winter, cuts short the milk yield for respect whatever for your judgment the day from one to two pints. Well water in regard to poetry? He smiled a sad, for drawn into vessels and allowed to stand a pipes.
